

Capability Overview

ABOUT US

*Dynamic Traffic Control is a **100% Australian privately-owned** company proudly delivering quality end-to-end Traffic Control services to customers of all industries in Queensland and New South Wales.*

Our Team

Dynamic believes in hiring local talent wherever possible and actively prioritises the training and development of skilled traffic control operators for projects in remote areas.

Dynamic's value-driven leadership and pursuit of high tech, industry leading, innovative management solutions by its highly experienced and passionate management team are helping achieve its goal of becoming Australia's most trusted and preferred traffic control company.

Management Team

Dynamic's over 45+ years of combined experience managing Traffic Management projects for small private companies through to large Government and Tier 1 construction companies enhances its capability to deliver a highly competitive end-to-end service.

Dynamic Traffic Control provides the following end-to-end services:

- Planning (including Site Inspections)
- Traffic Management Design
- Permit Applications
- Traffic Control (including full range of Equipment)

Social & Environmental Responsibility

Dynamic Traffic Industries recognise its responsibility to the health, wellbeing and sustainability of our staff, and members of the communities we impact. With this in mind all of our planning processes incorporate social and environmental impact assessments to ensure a net positive impact contribution is sustainably maintained.

Traffic Control Team

All Dynamic's Supervisors are TMD accredited and selected for their experience and professional work ethic.

All Dynamic's Traffic Controllers are licensed and accredited with Traffic Controller and Traffic Management Implementation tickets. All team members receive extensive in-house training and inductions to ensure that they are capable of meeting our high standards and are able to handle any situation that may occur on site.

Health and Safety

Dynamic Traffic Control is committed to providing a safe and healthy place of work for our employees and those we work with and impact. We are dedicated to achieving 100% compliance with safety legislation and codes of practise. Our Target Zero program, which encapsulates an incident and injury free environment, involves all employees and enables each person to contribute to the safe delivery of our projects.

OUR VALUES

Dynamic Traffic Control's core values lie at the heart of all interactions and activities and are a key source of its success. They are discussed daily within our team conversations and form the criteria upon which our performance metrics are based.

INNOVATION — We continually look for new ways to improve the quality of our services.

PASSION — We care intensely about delivering great experiences for our staff, customers, drivers, pedestrians.

QUALITY — We consistently exceed quality standards and expectations in every process and activity.

SAFETY — We prioritise the Safety of our staff, construction workers, event goers, drivers and pedestrians above all else.

COMMUNICATION — We communicate clearly, completely, and without delay.

RESPONSIVENESS — We strive to have the fastest turnaround rates and response times in the industry.
